REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art provided with the IDS filed 03072005 pertains respectively to ultrasound or microwave or radar pulse transit time measurements using a progressively amplitude tapered emission (DE 44 07 369 A1) and to a magnetic modulator low frequency modulation oscillation onto a carrier. The cited art alone or in combination does not teach or suggest the production of an output waveform of at least three different non-zero peak amplitudes by applying first and second voltage levels via respective first and second switches and then outputting this produced output waveform via a transformer.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to Jaworski Francis J. at telephone number 571-272-4738.
